

POSTERS

Dedicated marine fauna monitoring during the Flinders Deepwater 2D seismic survey in the Great Australian Bight: December 2000 – May 2001.

Burton, Chris, Colman, Jeremy, Serginson, Chris and Green Chris

Modelling phytoplankton biomass and succession in the Swan River estuary, Western Australia

Chan, Terence, Robson, Barbara and Hamilton, David

Foraminifera and their Tests as Environmental Indicators

Collins, Dylan R

Design & development of a sediment trap for use in evaluating organic loading associated with caged finfish culture

Forbes, Susan, Macleod, Catriona and Mitchell, Iona

Changes in the composition of entrance channel assemblages associated with the frequent artificial opening of coastal lagoons (ICOLL's)

Gladstone, William, Hacking, Nicole, Matheson, Peta, and O'Neill, Karen

SRFME Biophysical Oceanography Program: Photosynthetic characteristics of phytoplankton off Western Australia (preliminary results)

Hanson, Christine, Pesant, Stéphane, Waite, Anya and Pattiaratchi, Charitha

CRC Reef

Harriott, Vicki

Aerial Photography for Monitoring Shallow Marine Environments

Hegge, Bruce J., Kendrick, Gary, Smith, Craig, and Grice, Angela M.,

Stability of macroalgal assemblages affected by sea urchin grazing

Hill, Nicole, Blount, Craig, Poore, Alistair, Steinberg, Peter and Worthington, Duncan

Estimating abundance of abalone: a comparison of sampling methods using Monte Carlo simulation

Hodgson, Kate, Haddon, Malcolm and Johnson, Craig

Continuous Plankton Recorder Survey of the Southern Ocean

Hosie, Graham and Kitchener, John

Strategic Research Fund for the Marine Environment: The Biophysical Project

Koslow, J. Anthony, Beckley, Lynnath, van Etten, Chris, Gillen, Sorcha, Hanson, Christine, Mortimer, Nick, Paterson, Harriet, Pearce, Alan, Pesant, Stéphane, Strzelecki, Joanna, Waite, Anya and Werry, Jonathan

Monitoring seagrass health in Wallis Lake using members of the community

Laegdsgaard, Pia

SRFME Biophysical Oceanography Program: Pelagic Tunicates off Perth WA

Marshall, Julia R., Borowitzka, Michael A., and Koslow, J. Anthony

A Web-based Database of Predicted River Plume Distributions (1969 – 1998) in the Central and Northern Great Barrier Reef

McAllister, Felicity, King, Brian and Zapata, Mark

Introduction of the European flat oyster *Ostrea edulis* into Oyster Harbour, Albany, southwestern Western Australia
Morton, Brian, Lam, Katherine and Slack-Smith, Shirley

The visual system of seahorses: Applications for conservation and aquaculture
Mosk, Virginia, Thomas, Nicole, Beazley, Lyn and Shand, Julia

Sea surface temperature reconstructions from massive coral in the eastern Indian Ocean
Müller, Anne and Gagan, Michael K.

Caulerpa taxifolia in Australia: The story so far
Murphy, Nicole and Schaffelke, Britta

Use of *Hormosira banksii* in a Germination Inhibition Bioassay
Myers, Jackie, Allinson, Graeme and Duda, Susan

Successful mechanical seagrass transplantation in southern Western Australia
Paling, Eric, van Keulen, Mike, Wheeler, Karen, Phillips, Jim and Dyhrberg, Roger

The WA Mangrove Assessment Project 1999 - 2001
Pedretti, Yvette and Paling, Eric I

SRFME Biophysical Oceanography Program: Phytoplankton production off Western Australia (preliminary results)
Pesant, Stéphane and Waite, Anya

Ecologically Sustainable Management of Australia's Fisheries
Retif, Simone

The reproductive cycle and aspects of the feeding and locomotory behaviour of the sea cucumber, *Holothuria nobilis*
Shiell, Glenn

OzEstuaries – A Database of Australian Estuaries & Coastal Waterways
Smith, C.S. and Ryan, D.A.

Monitoring the clean-up of Antarctic waste dumps: asking the right questions
Stark, Jonathan S. and Riddle, Martin J.

Assigning Parentage in the Bottlenose Dolphin *Tursiops* sp. Using Random Amplified Polymorphic DNA
Taylor, Matt, Krützen, Michael and Sherwin, Bill

Pattern and Disturbance in Coral and Fish communities on the Great Barrier Reef, 1986-2002
Thompson, Angus, Coleman, G., Delean, S., Miller, I., Osborne, K., Page, C. and Sweatman, H.

Seagrass density and its influence on meadow hydrodynamics
van Keulen, Mike and Borowitzka, Michael

Sponge natural products bioaccumulate in marine animals
Vetter, Walter, Garson, Mary J., Fahey, Shireen J.*, Cameron, George M., Gaus, Caroline and Müller, Jochen F.

An intercomparison of three-dimensional models of eddy formations around an island in coastal waters.
Verspecht, Florence and Steinberg, Craig

Connectivity patterns on the North West Shelf
Waring, Jason, Condie, Scott and Mansbridge, Jim

The effect of seagrass on the spatial distribution of the microphytobenthos in a shallow marine bay
Webb, J.P. and Borowitzka, M.A.

The effect of clearing size and wave exposure on initiation of alternative states in West Australian kelp beds
Wernberg, Thomas* and Kendrick, Gary A.

SRFME Biophysical Oceanography Program: Ichthyoplankton assemblages
off Western Australia (pilot survey)
Werry, Jonathan M., Beckley, Lynnath E. and Koslow, J. Anthony

Watching over our oceans: Involving community in marine monitoring.
Wheeler, Karen
